

# LINE CARD

## MACHINING CAPABILITIES

- Components that are under 1.250" diameter
- Multiple or long turned diameters
- Components with threaded, knurled, drilled, milled, tapped, cross-drilled or slotted features
- Tight tolerances and fine surface finish parts

## COMMONLY MACHINE MATERIALS

- Brass	- Titanium
- Stainless Steel	- Carbon Steels
- Tool Steels	- Beryllium Copper
- Aluminum	- Many Other Materials

## INDUSTRIES SERVED

- Hydraulic Valves	- Automotive
- Electronics	- Consumer Products
- Dental Instruments	- Ordnance & Firearms
- Aerospace & Defense	- Other Industries requiring precision machined parts

## OUTSIDE SERVICES

- Grinding	- Sandblasting
- Black Oxide	- Zinc Plating
- Heat Treatment	- Honing
- Anodizing	- Coating
